

Do your IT systems hinder as much as help your business?

We specialise in IS/IT business value maximisation

We mediate between businesses and their IT departments or suppliers to ensure accurate requirements are clearly defined and understood. We also help implement new ways of making the best use of company information systems technology. We aim to improve 'net business gain' in overall productivity for IS/IT supported processes by 25% to 50%, sometimes more.

To discuss maximising your IS/IT business value, call:

07766 810610

and speak to **David Jacobs** or **Jean Cohen**

MAXIMUM
VALUE LIMITED

www.maximum-value.co.uk

The first hour of consultancy is FREE.

Thereafter we are able to offer special rates to SMEs.

Also, case study participation rates are available to companies based in Surrey; conditions apply.
